>. SCS Fall Meeting 2023¹

¹Swiss Chemical Society (SCS)

The SCS Fall Meeting is the major regularly organized event of the Swiss Chemical Society and one of the largest annual research conferences in Switzerland. For decades, the SCS Fall Meeting has been a great platform for senior scientists to showcase their current research results as well as for young chemists to present their research, often for the first time ever at a major conference. Be inspired by the people you will meet there and be part as one of the 1'000+ participants.

This year, we are again organizing the SCS Fall Meeting over two days, providing additional opportunities for sharing ideas and networking.

The organization team of the DCBP and the SCS is looking forward to your participation and to an exciting two days at the vonRoll campus of the University of Bern.
